Looping in Rusty and Dean.

It seems we should send the reporter to the media call today.

Dean – do you have the updated info that David Gray sent around yesterday with the new system.

Importance: High

Hi Bill,

Since Nahal is out until 8/18. Is there some who can respond to media requests for interviews? A program director, Mary Kennedy, would like to have someone speak on a radio program tomorrow to address the mining spill in UT that is reportedly flowing down the river into AZ.

Also we are getting calls from the public about the toxic sludge flowing downstream from UT to NV and AZ. Is there anyone what who can address their concerns?
